

This section doesn't need to be included- it's wording for me in the future

Other Health Impairment (OHI)

- The student exhibits limited strength, vitality, or alertness that results in reduced engagement and efficiency in the educational setting.
- Health-related needs, including difficulties with attention and self-regulation, adversely affect the student's educational performance.
- The student requires specialized support and instruction due to the impact of health-related factors on learning.
- Felix exhibits behavioral symptoms associated with his diagnosis of ADD that negatively impact his academic progress, reading fluency, focus, and executive functioning.

Impairment:

Specify chronic or acute health condition and reference documentation:

- Attention-Deficit/Hyperactivity Disorder (ADHD)
- Asthma (chronic)
- Anxiety disorder
- Diabetes (Type 1 or Type 2)
- Epilepsy/seizure disorder
- Chronic migraines

Add in a section to fill in a doctor's name and a date

It needs to say something along the lines of -

"STUDENTNAME has a medical diagnosis of _____, by doctor name on date."

If there is a tab under a tab, can you have there be a thing that turns it into "i.e. ____, ____, and ____."

Adverse Affect:

There is a documented adverse effect on educational performance due to one or more documented characteristics of the OHI. List and/or describe:

"STUDENTNAME demonstrates an impact on educational performance in the following areas:

_____, _____, _____"

- Difficulty sustaining attention during whole-group and independent instruction
- Reduced task completion and productivity
- Inconsistent academic performance
- Difficulty following multi-step directions or
- Difficulty retaining information
- Challenges with organization
 - (e.g., losing materials, disorganized work)
- Impaired executive functioning
 - (e.g., planning, initiating, and monitoring work)
- Increased distractibility from environmental stimuli or internal factors
- Difficulty remaining seated, excessive movement, or restlessness
- Impulsivity impacting accuracy and behavior
- Frequent need for redirection, prompts, or adult support
- Difficulty with transitions between tasks or activities
- Reduced participation in classroom activities or discussions
- Missed instructional time due to health-related absences
- Fatigue or low stamina impacting engagement and endurance
- Difficulty with peer interactions or social participation
- Emotional dysregulation affecting classroom behavior and learning

Need for special education:

Due to the identified OHI, the student needs specially designed instruction. List and/or describe

The sentence should say:

"The eligibility committee determined that STUDENTNAME needs specially designed instruction to address _____, _____, _____, and _____."

- Sustained attention
- on-task behavior
- Task initiation without adult prompting
- Task persistence
- completion of assignments
- Time management
- Prioritizing tasks
- managing workload
- Following multi-step directions
- Monitoring and checking work for accuracy
- Reducing careless errors due to inattention or impulsivity
- Note-taking and recording assignments accurately
- Transitioning between tasks and activities
- Flexible thinking

- adapting to changes in routine
- Goal setting and self-monitoring progress
- Use of coping strategies to manage frustration or overwhelm
- Emotional regulation during challenging tasks
- Appropriate help-seeking behaviors
- Independence in completing classroom routines
- Generalization of skills across settings
- Increased academic stamina and endurance for tasks
- Reduction of avoidance behaviors or work refusal
- Engagement and participation in instruction
- Development of problem-solving strategies
- Improved response to redirection and feedback
