

This section doesn't need to be included- it's wording for me in the future

Specific Learning Disability (SLD)

- The student demonstrates a pattern of academic difficulties that are not primarily the result of lack of appropriate instruction and adversely impact educational performance.
- Data indicate a weakness in academic skill development that interferes with the student's ability to access and demonstrate grade-level curriculum.
- The student requires specially designed instruction to address academic needs associated with a Specific Learning Disability.
- Isabella is demonstrating significant weaknesses in her overall reading and written expression skills which is significant and negatively impacts her academic progress and performance on tests/quizzes.
- On the WIAT-4, Yazan performed in the extremely low range on the written expression composite (SS = 58) and in the very low range on the reading (SS = 76) and math (SS = 71) composites. These scores are consistent with the academic needs identified in his IEP, indicating Yazan continues to experience an adverse effect on his educational performance.

Has the student had any of the following interventions?

Check all that apply:

These don't need to be in sentence format, just with commas in between each one

504 plan:

- Extended time on tests and assignments
- Preferential seating
- Breaks during instruction or testing
- Reduced assignment length without reducing content
- Use of organizational tools (checklists, planners)
- Small group or separate setting for testing

Instructional Support:

- Small group instruction for reading and/or math
- Re-teaching of skills using different strategies
- Guided practice with teacher support

- Use of visual aids, manipulatives, or graphic organizers
- Frequent checks for understanding
- Explicit, step-by-step instruction and modeling

Behavior Intervention Plan:

- Daily behavior goals with monitoring
- Reinforcement system
- Scheduled breaks or cool-down area
- Teaching replacement behaviors
- Clear expectations and consistent consequences
- Regular communication between school and home

Retention:

- Student repeated a grade to strengthen foundational academic skills
- Additional time provided to develop reading, math, or social skills
- Continued exposure to grade-level standards with added support

Remedial Programs:

- Participation in reading intervention programs
 - (e.g., phonics-based instruction)
- Math intervention groups targeting foundational skills
- Tier 2 or Tier 3 intervention services
- After-school or summer remediation programs
- Use of intervention curricula targeting specific deficits

Behavior Modifications:

- Positive reinforcement for appropriate behaviors
- Behavior charts or daily report cards
- Breaking tasks into smaller, manageable parts
- Frequent movement or sensory breaks
- Verbal reminders and redirection
- Structured routines and clear transitions

Program Adjustments:

- Modified assignments
 - (reduced workload, simplified directions)
- Adjusted pacing of instruction
- Alternative methods to demonstrate understanding
 - (oral responses, projects)
- Use of assistive technology

- (e.g., text-to-speech, speech-to-text)
- Additional adult support in the classroom
- Flexible scheduling or modified daily routines

ESTAT (MTSS):

- Tiered intervention support (Tier 1, Tier 2, Tier 3)
- Data collection and progress monitoring
 - (e.g., weekly probes, graphs)
- Problem-solving team meetings to review student progress
- Targeted interventions in reading, math, or behavior
- Adjustments to interventions based on student response
- Collaboration among teachers, specialists, and support staff

Sentence:

“STUDENTNAME requires specially designed instruction in the areas of:”

- task completion
- attention to task
- emotional regulation
- executive functioning
- Organization
- self-monitoring
- task initiation
- time management
- impulse control
- compliance with adult direction
- Functional communication
- Reading (decoding)
- Reading (fluency)
- Reading (comprehension)
- Written expression
- Mathematics (calculation and problem solving)
- Attention
- self-regulation
- Social skills
- Expressive Communication
- Receptive Language
